

# Design Your AI-Powered Crash Course

GoSkills online course syllabus

**Skill level**

Beginner

**Lessons**

12

**Pre-requisites**

No prior experience needed

**Video duration**

23m

**Estimated study time**

23m 30s

**Instructor**

Kelly Dern

## Introduction

---

- 1 Transform skill-building with AI**  
The way people learn is transforming, and artificial intelligence (AI) is at the forefront of this change.

## Define Your Learning Goals with AI

---

- 2 Set clear and measurable learning objectives with AI**  
Without clear objectives, learning becomes aimless.
- 3 Identify essential skills using AI insights**  
Time is limited, so you need to focus on what matters.
- 4 Craft an effective prompt**  
Getting vague or off-base answers from AI often comes down to how you ask.

## Build Your AI-Powered Learning Path

---

- 5 Assess your strengths and gaps with AI**  
Self-assessment is key to improvement.
- 6 Create a customized AI-driven curriculum in minutes**  
A well-structured plan makes learning faster and more effective.
- 7 Use AI to curate high-quality learning resources**  
The internet is full of resources—AI helps you find the right ones.

**8** Accelerate learning with three powerful AI prompts  
Prompts are the key to unlocking AI's potential for learning.

**9** Test out your technical skills with AI  
AI is a powerful tool for learning and testing your technical skills.

## Maximize Retention with AI Microlearning

---

**10** Break down complex skills into bite-sized lessons  
Microlearning boosts retention by focusing on manageable tasks.

**11** Reinforce learning with AI-powered testing  
Testing isn't just for assessment—it's for learning.

## Conclusion

---

**12** Take control of your learning with AI  
Thanks for watching!
