Word Screen Elements

1

The Ribbon and Word Screen

An overview of the Word opening screen and Ribbon functionality.

2

Quick Access Toolbar

Set up the vital buttons you use most to make your work easier.

3

Navigating the Page

Learn how to control where you type and how to navigate within the page.

4

Your First Document

Learn how to enter text and save your first document.

5

Formatting Fonts

Format text with colors and apply fonts.

6

Basic Letter Layout

Learn how to format a basic letter layout.

7

Basic Cut, Copy, Paste

Cut, copy and paste is an essential skill to help minimize re-typing text.

Essential Formatting Knowledge – the Home Ribbon

8

Styles Gallery

Learn how and why to apply predesigned Styles to text.

9

Format Text with Fonts and Colors

Learn how to apply bold, italic, underline and Drop Caps styles to text.

10

Format Painter

Quickly copy and paste “formats” with this amazing button.

11

Practice with the FONT Group

Learn to apply various font styles and why they are used in professional documents.

12

Basic Paragraph Formats

Paragraph format and alignment is important to proper document layout.

13

Fun and Functional Paragraph Formats

Apply background colors or borders to paragraphs.

14

Bullets and Numbering

Learn how to apply and control bullets and numbering.

15

Indents

Learn how and when to use specific indent types.

16

Line Spacing

Learn why you would want more space between the lines within paragraphs and how to apply the space.

17

The Find/Replace Function

Learn to quickly find a word or format and replace it with an alternative.

The File Ribbon

18

File, New

Explore the readily available document templates rather than creating a particular document from scratch.

19 File, Recent
Learn to quickly preserve files and easily access your most used documents.

20 File, Share
View the various ways to collaborate with others on a document.

21 File, Info and Security Considerations
Password Protect a file or Recover an unsaved version.

The View Ribbon

22 Document Views
Learn how and why to use the different available document views.

23 Navigation Pane
Learn how the Nav Pane assists with document management.

24 Show and Zoom Controls
How to quickly add the Navigation pane and quickly zoom in and out of the document.

25 Use Multiple Windows
Learn about using multiple windows to view the same or various documents side-by-side.

Intermediate Formatting Knowledge – the Insert Ribbon

26 Inserting Page Breaks and Blank Pages
Quickly force a new page at the location you specify, and/or add a blank page as well.

27 Add a Cover Page
Pre-designed cover pages to give a professional look to your report.

28 Creating Tables
Tables provide a structure of columns and rows to help the user line up data, similar to a spreadsheet layout, but within a Word document.

29 Inserting Pictures and Clip Art
Learn how to apply and control picture sizes and placement.

30 Online Pics and 3D Models
How to find Online Pictures and add 3D Models that are rotating pictures.

31 Basic Use of Shapes
Learn to move and color shapes to draw attention to an area.

32 Screenshots
Learn how to capture a picture of your screen and use in a document.

33 Headers and Footers
Learn how to add Headers and Footers to a document.

34 Page Numbers and File Location Notes
Learn how to apply and control page numbers and insert file notes.

35 Word Art
Learn this creative text format often found on flyers, and a clever “rubber stamp” to use on documents.

36 Symbols
A necessary and interesting toolset if using creative accents, symbols, or displaying mathematical formulas.

Essential Page Layout Ribbon

37 Margins
Learn how to set margins to standard or custom settings.

38 Paper Orientation and Size
Learn how to change paper size and orientation depending on the document type.

39 Using Columns
Learn to divide text into long columns to make the best use of paper.

40 Paragraph Spacing
Learn how to control spaces between paragraphs all at one time and adjust spacing as needed.

Explore the various options within the Print dialogue box.
